

### **Module III**

1. What do you understand by Graph densification in Machine Learning, also enlist its applications?
2. Describe about Vocabulary-based Summarization in Machine Learning and how it play its key role.
3. Explain the Knowledge Graph Construction in Machine Learning and its uses.
4. How Large-scale Graphs help the user of applications based on Machine Learning.
5. What do you mean by TimeCrunch algorithm in Machine Learning, discuss with details.
6. Briefly discuss the key features and applications of SlashBurn algorithm in the context of Machine Learning.
